### BIOGRAPHY

"YIDDISHE LIEDER" is perhaps the most genuine expression of the soul of the Jewish people. More and more, people have come to recognize folk singing as an important art-form.

No one is more qualified to practice this art than Moshe Koussevitsky, long considered the greatest Cantor of his generation.

This is the first time that Cantor Koussevitsky has ever recorded an album of Yiddish songs, but he always includes a number of them on his concert programs, invariably arousing the enthusiasm of audiences and critics wherever he appears. Cantor Koussevitsky's tours have taken him into all the great concert halls of the world, and he has performed before numerous dignitaries and heads of state.

Some of these beautifully sung songs have never before been heard on records. They will give old-timers a great deal of nostalgic pleasure and are sure to win over a whole new audience for "Yiddishe Lieder".

### PROGRAM
