## Malavsky family Passover seder service

Passover is a joyous, festive, traditional family holiday. The family gathers to share the beauty of ritual.

"We Were Slaves Unto Pharaoh in Egypt and the Eternal, our God brought us forth thence with a mighty hand and an outstretched arm—The Lord our God delivered Israel from bondage to Freedom."

We are to observe the "Order"—"Seder"—in the manner in which we are to tell the glorious story of Passover.

"He, who tells the story of the deliverance from Egypt has a great 'Mitzva'."

The internationally famous Malavsky Family, whose spirit of family unity and artistic achievement has thrilled audiences throughout the world, have achieved this "Mitzva" in festive song and in heart-rendering Prayer. They have completely captured the Passover family holiday spirit in bringing their unexcelled interpretations of the traditional Passover Melodies to you and your family.

Their bright, happy voices are blended in melodious harmony as they chant Vayi Da-Ber—"And Moses declared unto the children of Israel, the appointed seasons of the Lord."

Kiddush—"Sanctify the season of our freedom in Love, Blessed be this Festival for rejoicing."

The Kashes—"Why is this night of Passover different from all other nights?"

Da-yeh-Nu—"Had He but brought us forth from Egypt—it would have been sufficient."

Cantor Malavsky, recognized by leading authorities as the world's leading interpreter of our Hebrew liturgy, renders the heartfelt prayer of SFIRA.

"Lord of the Universe who commands us to the counting of the Omer. And bring the measure of Grain to the Holy Temple, to Purify and sanctify our Souls so that we may be worthy to worship our Lord."

The glorious Malavsky family voices blend in thrilling harmonious accord to the most popular Seder Melody—CHAD-GAD-Yoh.

Passover Seder Joyous, Festive, Traditional performed by the leading Jewish Singing Family—The Singers of Israel—The Malavsky Family.

### Technical Notes:

Transferred by Ampex Model 351 Tape Recorders through Pultec and Graphic Equalizers and Filters. Master Acetates were cut on a Neuman Lathe using specially designed amplifiers, limiting and filtering systems, coupled to a Westrex Cutting Head. For added clarity without sacrificing level a Fairchild Conax, Hi-Frequency Limiter was used.

The original master recording of this L. P. was consigned to oblivion and only recently discovered and brought to life through the miracle of modern day electronics and the most ingenious of technical resources. This recording has been restored almost to its original quality. The slight scratching sounds still audible on this L. P. and the various very minor imperfections are due to the limitations of the original early recording process. These slight imperfections have not been removed entirely, in order to preserve the highest possible faithfulness to the original recording.
